SKILLS

- **Languages:** C, C++, JavaScript, PHP, Python
- **Web Technologies:** HTML, CSS, Tailwind CSS
- **Frameworks:** Node.js, React, Django, Laravel
- **Tools & Platforms:** GitHub, VS Code, MongoDB, MySQL, WordPress, PostgreSQL
- **Soft Skills:** Problem-Solving, Adaptability, Communication, Team Collaboration

PROJECTS

- **MovinAir | WordPress | [GitHub](#) | [LIVE](#)** Dec' 25
 - Replicated the MovinAir website design and functionality using WordPress, closely matching the original layout, typography, and user experience.
 - Customized themes and plugins to implement dynamic content management and interactive features.
 - Enhanced website responsiveness and performance to ensure smooth rendering across desktop, tablet, and mobile devices.
- **LocalEats | React, Node.js, Tailwind CSS, MongoDB | [GitHub](#)** Nov' 25
 - Engineered Local Eats, a full-stack web application inspired by Swiggy, enabling discovery and ordering from local stores and shops.
 - Architected and implemented a Node.js backend integrated with MongoDB to efficiently manage store data, menus, and user information.
 - Optimized application scalability, maintainability, and performance through modular architecture and reusable component design.
- **Material-Management-during-Disaster | Tailwind CSS, PHP, JavaScript | [GitHub](#) | [LIVE](#)** Apr' 25
 - Crafted a web-based disaster relief management platform to monitor, allocate, and track essential resources in real time.
 - Structured workflow pipelines and data-management processes to enable rapid and accurate decision-making during crises.
 - Elevated tracking accuracy and distribution efficiency by 30% through reduction of manual errors and refinement of response workflows.

TRAINING

- **CSE-Pathshala | Basic Python toward ML/AI | [Certificate](#)** Mar' 24
 - Acquired strong foundational proficiency in Python for ML/AI, including data structures, control flow, and functional programming.
 - Executed hands-on exercises in Google Colab involving dataset operations, function building, and introductory ML workflows.
 - Amplified analytical reasoning, coding skills and technical preparedness through structured, mentor-guided training.

CERTIFICATES

- Introduction to Internet of Things | [NPTEL](#) Apr' 25
- TCP/IP and Advanced Topics | [Coursera](#) Nov' 24
- Introduction to Hardware and Operating Systems | [Coursera](#) Sep' 24
- The Bits and Bytes of Computer Networking | [Coursera](#) Sep' 24
- Generative AI Workshop | [AGI-Scholars](#) Mar' 24

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.96 Aug' 23 - Present
- **Narayana Junior College** Guntur, Andhra Pradesh
Intermediate; Percentage: 97.8% Apr' 21 - Mar' 23
- **Loyola Public School** Nallapadu, Andhra Pradesh
Matriculation; Percentage: 89.7% Apr' 19 - Mar' 20
